

The text 'BSC DRY MOPPING' is centered within a large, downward-pointing blue diamond shape. The background of the entire page is a collage of modern skyscrapers in shades of blue and yellow.

# ELECTROSTATIC CLEANING

Disposable dry mopping sheets

## Where can you use these products? Key departments within your facility:

- » Lobbies
- » Elevator vestibules
- » Meeting rooms
- » Smooth, hard flooring

## Potential Business Needs

- » Reduction in water and chemical usage
- » Reduce the frequency & volume of wet cleaning procedures
- » Reduce dust and other allergens to maintain high cleanliness throughout the building
- » Decrease the risk for slip and fall.
- » Improve cleaning efficiency and reduce time on site.

## Key Benefits to Meet these Needs

- » Capture and remove soils from your facility without the use of water and chemical.
- » Biomop™ and Dynamop are both disposable so no need to launder.
- » Biomop is biodegradable
- » Lightweight for maximum user efficiency
- » Save wet cleaning for when it's absolutely necessary
- » Replace wet cleaning with dry mopping wherever possible

# BSC DRY MOPPING

## Probes to Uncover these Needs

- » Are you interested in improving your cleaning procedure and reducing time on-site without sacrificing cleaning efficacy?
- » Would you like to improve your dust/dry mopping program to reduce the frequency of wet cleaning?
- » Are ergonomics important to you and your staff?
- » Are you looking for green technologies?

SITUATION	NEED	SOLUTION	BENEFIT
